Brand Energy & Infrastructure Services

Insulation

Our insulation assists in creating a compliant working environment around machines, construction operations and equipment, along with meeting the strict health, safety and environmental regulations placed on limiting noise production.

We have an extensive range of insulation and tracing equipment available to produce excellent standards of protection for steel and most metal surfaces.

+ Global Reputation

As a specialist in our field, we work transparently with our business partners to deliver the additional and complimentary services you may require. These include training, budgeting and project management, site rental services and other specialist solutions – all under our singular supervision, control and administration.

Across Europe, we also provide a number of *Specialist Industrial Services* to support customers:

- + Rope Access
- + Industrial Coatings
- + Painting & Blasting
- + Fireproofing & Fire Stop
- + Digital Services

At Brand, safety comes first, always.
